

# Upholstery Cleaning Services

## A Strategy for Healthier Indoor Living

At Big Red, we appreciate that your furniture may be one of the biggest investments in your home. Understandably, it is as important to a room's appearance as the flooring and we offer industry-leading technology and the highest standards of service to ensure the best results.

Using the hot-water extraction method, the cleaning will remove the residual cleaning solution together with all the embedded particles and dirt that has built up over the years, and restore the beauty and increase the life of your furniture.

Upholstered furniture are well known reservoirs of allergens, dust and dirt particles. Regular professional cleaning of these fabrics will ensure that you enjoy a cleaner and healthier indoor living environment.

### Protect your Furniture

After each cleaning, our technicians can apply a fabric protector on your upholstery that becomes a layered barrier around the fibres. This enhances the resistance to soil, accidental spills & general wear & tear.

### Some of the Areas Big Red Specializes in for Upholstery Cleaning

Residential Homes

Interior of Boats

Commercial Offices

Hotels

Fabric Panels & Dividers

Restaurants
